OCEANPLUS®

OCEANPLUS® HAI TOH QUALITY HAI

FEATURES

- ✓ Trusted ISI Mark Ensures 100% Quality
- ✓ High Storage Capacity
- ✓ Made with Advanced Technology
- ✓ Heavy Duty, Long Life and Durable
- ✓ Meets FDA Standards

Main Speciality

Hygienic

High Strength

LLDPE

Technology

With anti-bacterial treatment

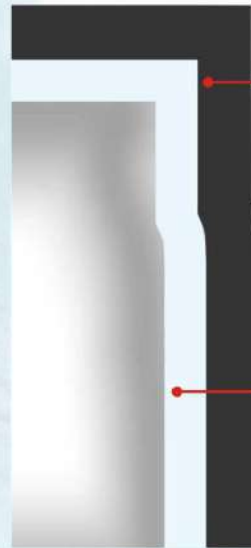

Unique Threaded Lid - a first!

WATER STORAGE SOLUTIONS

OCEANPLUS®

Outer Layer For Safety

Black Protective Layer

- This Layer gives the desired opacity to the tank, which is very important for long storage.
- The middle layer also protects the inner white layer from harmful UV light of Sun.
- It offers extended life to the tank.
- The opacity of this layer helps in protecting the water from unwanted toxic fungus & bacteria.

Inner Layer For Hygienic Storage

Bluish White Layer

- This inner white layer offers excellent buffering capacity to the tank.
- This white layer lets us see the water in its purest form.
- The white color is a symbol of hygiene & purity.

FEATURES:

- Virgin plastic
- Double-layer body
- 100% UV stabilized
- FDA approved
- Protection against algae formation
- lightweight and durable
- hygienic
- Quality tested and approved by leading laboratories, industries and institutes
- Maintenance-free
- Rustproof
